

NATAE: Fostering agroecology transition in north Africa through multi-actor, evaluation, and networking

Objectives:

Co-design and assess agro-ecological practices performances by taking into consideration the household farming diversities

☾ Identify and assess obstacles and opportunities in creating agro-ecological based-value chain

Identify and test policies targeting to promote agro-ecological practices and value chains

☾ Enhance capacity building: student, researcher and extension services

☾ Setup an Atlas...for capitalization and outscaling.

Key information

☾ Budget: 7M€

☾ 23 partners: Public and private, national and international organization, NGO's and cooperatives, farmers

☾ 7 living labs representing the large diversity of Mediterranean cropping and farming systems.
